are wonderfully attractive. The price of materials is going up steadily. We could not offer such prices now if we had not made purchases ahead.

Our new fall stock is superb; handsome and well made suits of furniture for parlor, library and dining room, bedroom—we never showed finer goods.

We bought before the rise in prices and we are giving our customers the benefit—you will do well to take advantage of this.

Our carpets are so numerous and delightfully varied that it is a puzzle to select the prettiest. We have all makes and qualities.

## FOR A COLORED TRUSTEE.

Protective Colored Association Wm. South Washington Represented. A largely attended meeting of the Protective Colored Association of South Washington was held Thursday afternoon at the residence of Rev. Henry Clay Robinson, president.

The committee which was appointed to wait on the district officials and present their memorial which was adopted by the association, telling of the needs of the public schools in that locality and praying for the appointment of a colored school trustee, reported that they had visited the Commissioners and presented the memorial and that the committee was then referred to the board of trustees of the district for consideration.

"STRAW MAN" IN IT. Henry F. Woodward, assignee of James H. Williams, yesterday brought suit in equity against Mr. Williams and three others to secure the enforcement of a deed in trust on lot A, square 1622.

The deed was executed to Messrs. William L. Poole and Walter L. Mottin in trust to secure the payment of a promissory note for \$1,070.60, dated November 3, 1894, to the order of Frederick Saxby. It is claimed that Saxby was a "straw man," and that Edward Gruber, one of the defendants, is the real owner and holder of the note. It is also stated that Gruber did not advance the sum of \$1,070.60 as alleged, but made the loan \$829.60.

The prayer was made by the petitioner that the defendant should be required to discover and state the detailed circumstances of and the amount of the loan.

## PLACING STREET TREES

Objections to the Eight Feet From the Curb Line.

ASSESSORS NEED MORE TIME

Cannot Complete Their Work by the Beginning of Next Year—Dr. Golding's Appeal for Better Sanitation Around the Insane Asylum. Reports of Charitable Institutions.

The suggestion made by the Commissioners that street trees be hereafter set in the streets at set intervals, shall be placed eight feet from the curb line, has been considered upon variously, and it is evident there are two sides to the question.

It is argued in favor of the proposition that in narrow thoroughfares the change will give the appearance of being wider, and that when set back from the curb line the trees are not subjected to damage through horses hitting the limbs and removing the bark. The objections are that the protruding roots will interfere with building walls and that they will occupy greater space under the sidewalks and will therefore cause the more injury by bulging.

The change is seriously contemplated, there being other reasons than those stated to warrant it. The board of assistant assessors, realizing that they will not be able in the time allotted to accomplish thoroughly the work required of it, has addressed a letter to Assessor Trimble suggesting that Congress be asked to extend the time for delivery of the report of the report of the valuations of realty to be later for taxation.

MULTITUDE OF DUTIES. Referring to the multitude of duties devolving upon the board, President Lums says:

"To do this properly, and as required by law, and make the return by the first Monday in January, will be physically impossible, and the board requests that Congress be asked for an extension of time to June 30, 1896."

"When it is understood that there are sixty-nine and one-half square miles of territory in the District of Columbia, every piece of which is subject to be assessed from a special view, and the further fact that five weeks of the time, from March to January, 1896, were taken up in assessing new buildings, and the additional duty involved as an ex-cesso board, there being 150,000 and 175,000 places under the supervision of the board, it is not understood how impossible it will be to make the return, as required, by January, 1896."

President Ballinger, of the Columbia Heights Citizens' Association, yesterday received the application of the property owner for the paving of Columbia Heights street and the improvement of the street on Columbia Heights, as made by a formal paper presented several weeks ago.

During the discussion of this and other questions with Commissioner Powell it transpired that the square located opposite the Barker Hotel, near the intersection of the street, and near John A. Logan's residence, will be given designation by the Commissioners as Sherman Park, in compliance to the owner, Senator Sherman.

DR. GODDING'S REPORT. According to the annual report of the board of visitors of the Washington Government Hospital for the Insane, submitted yesterday, the number of admissions, 371, an average of more than one a day, has never been exceeded within the hospital's history, except during the last two years of the war.

The number of patients under treatment, 2,052, is in excess of that of any previous year, and the daily average is nearly fifty more than ever before.

An appeal is found in the report for better sanitary conditions. Malaria is prevalent in the institution, owing to the marshy character of the Eastern Branch of the Potomac, on which the hospital stands. This is due to the absence of attempts of the Government to fill the flats and sickness at the hospital is reported to be on the increase every month.

DISTRICT CHARITIES. Through Col. John Tracy, superintendent of charities, the annual reports of three charitable institutions were yesterday submitted to the District Commissioners. The National Colored Bazaar reports the number of dependents during the year as: Adult women, 9; children, 96; boys, 60; girls, 26; admissions, 25; sent to homes, 18; deaths, 1; sent to hospital, 1.

The appropriation of \$9,900 has met all expenditures without incurring indebtedness. An increase in expenditures is asked for next year, to cover the following items: Refueling grounds, painting roof, purchase of fire extinguishers, fire alarm boxes, fire escapes, and renovating vault. Total estimate, \$1,800.

The Washington Dispensary reports that with the government appropriation, \$500, the total receipts were \$1,062.23. Number of prescriptions compounded, 4,699; patients treated, males, 123; females, 1,060; of medical cases, 52 males and 189 females, surgical cases. It is asked that the appropriation be increased to \$1,500.

The German orphan asylum reports: Average daily number of orphans and half orphans cared for, 39; largest number, 43; smallest, 35. Thirteen were admitted during the year. Thirty-five of the children attended the public schools in Uniontown. The financial exhibit shows a balance on hand, July 1, 1894, of \$18,442; receipts for the year, including government appropriation, aggregated \$8,472.97; and the expenses, \$6,038.54. Balance in treasury, \$4,887.40.

OFFICIAL ORDERS. The Commissioners ordered yesterday: That eminent sidewalk be laid as follows: In front of 225 C Street southwest, in the east side of Connecticut avenue for 100 feet north of Florida avenue, and in front of No. 1206 Sixth street northwest, all under the provision of the permit system. That each house be constructed at the southeast corner of Whitney and Brightwood avenues and at the southeast corner of Sheridan and Brightwood avenues, chargeable to the current appropriation for suburban sewers.

The one napkin lamp, recently discontinued on Benning road, be erected in the alley known as Dudley place, square 576.

Edward D. Johnson has tendered his resignation as a member of the police department force, and it was yesterday ordered to be accepted, to take effect at once.

The Commissioners have finally approved of the plan, as published in The Times several months since, for naming the cross streets in the districts where the extension system applies.

Inquiries in January. Dr. Howard C. Russell's resignation as physician to the poor has been accepted and Dr. J. B. Devereux appointed to succeed him.

Peddlers in the city. The sanitary of Peddlers Jackson and Sallie Hill have been filed.

## SLASHED WITH A RAZOR

Brutal Assault Upon Hostler Taylor by Samuel Brown.

Latter Was Smoking a Cigarette in the Stable and Cut Taylor When About to Be Ejected.

While puffing away at a cigarette yesterday afternoon Samuel Brown, colored, seventeen years old, entered the stable on Fourth street northwest where John H. Taylor, colored, is employed as hostler. Taylor requested Brown not to smoke in the stable as it was filled with combustible material.

"I'll smoke where I please," retorted Brown with an oath. "A stable was burned to the ground in South Washington last night by a fellow smoking a cigarette," continued Taylor, "and you can't smoke in here."

Brown still refused to discard his cigarette and Taylor ordered to eject him from the building. During the struggle Brown drew a razor and terribly slashed the stableman across the left temple and forehead, making ugly wounds. He then cut him several times across the hands, chest and arms, one of the razor strokes severing the main tendon in Taylor's right hand, which may render that member useless for life.

A cry of "police" was set up and Patrolman Wiggins, of No. 6, appeared and arrested Brown on the charge of assault and battery.

Police Officer, with the Sixth precinct patrol wagon, hurried Taylor to the Emergency Hospital. There it was found that he had two deep cuts across the left temple, one of which severed the temporal artery, four lacerations on the chest, a deep cut across the forehead, and his left hand and arm badly lacerated. His wounds were sewed up by Drs. McDonald, Heller, and Fenton.

Taylor was afterwards removed to his home, No. 1326 I street northwest. His condition is serious.

HE FOUND HIS DRESSIE. Mr. Douglass, Recovered His Erring Daughter in Frederick.

Mr. T. M. Douglass, a marine engineer, of Norfolk, Va., who recently asked the Washington police to help find his daughter, has discovered the girl in Frederick, Md.

Mr. Douglass states that his wife died on April 4 last, and left him four children, the oldest of them is Bessie, who is a very promising and handsome young woman. He said his striking appearance attracted the attention of a young widow, who had come into possession of some life insurance money, and she induced his daughter to leave her comfortable home and travel around the country as her companion, and he would lead a life of luxury and ease being infatuated with her brilliant picture, she assumed, and on May 27 left for Washington, where she soon found herself in a place where a self-respecting girl should not be found. On realizing the position in which she was placed she was ashamed and decided to leave the place and return to her home, where she would be able to support herself.

The meeting between father and daughter was very touching, and the child was overjoyed at the sight of her parent, and expressed great delight to know she had not been abandoned and abandoned, and immediately left for her home, accompanied by him. Mr. Douglass said he had been searching all the principal Southern cities and had been kindly assisted by the police departments, as he felt confident his child had been deceived and deceived. He obtained his first definite information of her a few weeks ago through the Washington authorities, who located her in Frederick.

JUDGE COX UNDECIDED. Maudie Gershenberg's Dog Is Alive and Happy.

Judge Cox still has under advisement the granting of a writ of prohibition restraining the police from killing Gershenberg's dog, Hiram.

It was expected he would announce his opinion in the case yesterday, but he told Mr. George W. Albright, the attorney in the case, that he would not give a decision in the matter before today.

CALLED HIM A BABY. An Innocent Epithet Caused a Row in Town Meeting.

The town commissioners of Hyattsville held an unusually stormy meeting at the town hall last Monday night. The chief topic of discussion was the alleged violation of the town ordinance by the dog of Maudie Gershenberg, a colored woman, who was very soon deeply engaged in the business of his new position.

MOTHER TOO CARELESS. Baby Fred and Jammed a Tin Horn.

Harry Craft, the two-year-old son of John Craft, colored, of No. 332 Twenty-seventh street northwest, came near being killed yesterday through carelessness, apparently, by falling into his face with a tin horn in his mouth.

The child was given the tin horn to play with, and he fell face down, driving the tin horn into his face, and he was very soon deeply engaged in the business of his new position.

Washington Sleuths' Quick Work. Detectives Horn and Weiden yesterday recovered a lady's gold watch, with a long gold chain and pearl pencil chain, which was stolen Wednesday in Baltimore. They are after the thief.

Picked the Boy's Pocket. George Bagwell, a young colored boy, residing at the corner of 10th and 11th streets, was yesterday taken to the police station by a patrolman who had taken a pocketbook from him while on the boat going to the city.

The man saw him in the crowd, followed him down the dock, and he felt the man take the pocketbook from him, but he did not say a word. He told the officers stationed at the dock, but they said they could do nothing for him.

Charles County Thief Caught Here. Patrolman J. J. Weiden yesterday filed an amended bill of complaint in the suit of James E. Dexter against Joseph P. Germain. This is a suit for injunction growing out of the theft of a chain, which is now on the eve of being paid.

Filed an Amended Complaint. Attorney J. J. Weiden yesterday filed an amended bill of complaint in the suit of James E. Dexter against Joseph P. Germain. This is a suit for injunction growing out of the theft of a chain, which is now on the eve of being paid.
